Skills

- **Languages**: C++, Python, Java
- **Web Technologies**: HTML, CSS
- **Tools/Platforms**: TryHackMe, Wireshark, VM Ware WorkStation
- **Soft Skills**: Leadership, Problem-Solving, Teamwork, Adaptability, Collaboration

Projects

Cyber Incident Feed Monitoring Tool | GitHub — Oct' 25 - Dec' 25

- Collected real-time cyber incident data from multiple threat intelligence feeds, security blogs, and government cybersecurity portals.
- Visualized cyber incident trends through dashboards, charts, and analytical reports for improved decision-making.
- Monitored global cyber incidents such as data breaches, ransomware attacks, phishing campaigns, and malware outbreaks.
- **Tech**: Python

Car Rentals and Reservation System | GitHub — Jan' 24 - Feb' 24

- Allowed customers to browse and select vehicles from a detailed catalog that displayed car models, pricing, availability status, and rental policies before making a reservation.
- Enabled users to reserve cars in advance by selecting preferred dates, rental duration, and vehicle type, which improved convenience and reduced waiting time at the rental office.
- Stored and managed customer information, booking records, and vehicle details in a centralized database to ensure accurate data handling and quick retrieval of information.
- **Tech**: JavaScript, HTML, CSS

Blood Donation | GitHub — Jan' 24 - Feb' 24

- Developed a blood donation management system that organized and maintained records of blood donors, blood groups, and donation history to ensure efficient management of blood resources.
- Collected and stored donor information such as name, contact details, blood group, health status, and last donation date in a centralized database for easy access and management.
- Enabled hospitals, blood banks, and medical camps to quickly search for suitable donors based on blood group, location, and availability during emergency situations.
- **Tech**: HTML, CSS

Training

Data Structure and Algorithm using Java Programming | CipherSchools — Jun' 25 - Jul' 25

- Studied fundamental concepts of data structures and algorithms using the Java programming language to improve problem-solving and programming efficiency
- Enhanced programming knowledge by implementing real-world problem solutions using data structures and algorithms in Java.

Certificates

- ChatGPT-4 Prompt Engineering: ChatGPT, Generative AI & LLM | Infosys | Certificate — Aug' 25
- Build Generative AI Apps and Solutions with No-Code Tools | Infosys | Certificate — Aug' 25
- Computational Theory: Language Principle & Finite Automata Theory | Infosys | Certificate — Aug' 25
- "Code-A-Hunt" 24-Hours Hackathon" | LPU | Certificate — Mar' 24
- "Microlearning in Full Stack Development" | BOORD | Certificate — Feb' 24
- "HTML & CSS Zero to Hero in 3 Days" | Let's Upgrade | Certificate — Feb' 24

Achievements

- Symposium Cyber Security Event For 3 Days | LPU — Apr' 24
- Top 10 in "Code-A-Hunt" Hackathon among 200 participants | LPU — Mar' 24

Education

- Lovely Professional University — Punjab, India
  Bachelor of Technology - Computer Science and Engineering | ***CGPA: 6.5*** — Aug' 2023 - present
- Shri Guru Ram Rai Public School Hardoi — Hardoi, Uttar Pradesh
  Intermediate | ***Percentage: 60.2%*** — *Apr' 21 – Mar' 22*
- Shri Guru Ram Rai Public School — Hardoi, Uttar Pradesh
  Matriculation | ***Percentage: 81%*** — *Apr' 19 – Mar' 20*
